

## QUIKCRIMPER PRECISION TOOLING

Quikcrimper brand tooling, available exclusively from **CARROLL AUSTRALASIA**, has become the benchmark for long wearing, quality, electrical tradesman tools. We offer tools for the professional tradesman down to the budget conscious and general maintenance handyman. **On our professional quality tools, we offer an extended two year warranty and a unique calibration service, designed to comply with recognised quality assurance systems.**

### CRIMP TOOLS - PRE-INSULATED TERMINALS

In order to achieve superior electrical and mechanical connections, it is necessary to employ simple yet precise crimping methods. Quikcrimper tools are carefully constructed to ensure that each connection will be uniformly excellent. In fact, the whole science of solderless wire termination depends upon the degree of control and accuracy used to form each pressure-crimped connection. This theory should be the basis used for the selection of an appropriate quality crimp tool.

**CARROLL CRIMP**

**CRIMP TOOLS - CARROLL CRIMP GEAR OPERATED HAND CRIMP TOOL**

The new CARROLLCRIMP gear operated, hand crimp tool is the heavy duty, economical alternative to hydraulic tools.

Carrollcrimp is capable of crimping from 50mm<sup>2</sup> to 300mm<sup>2</sup> on copper cable. Comes complete with 9 sets of crimping dies and a durable canvas carry bag for protection on site and to aid mobility.

Dies also available for individual purchase. (See below)
